

Too many patients with respiratory symptoms?

GPRCs are ready for your patients

New GP Respiratory Clinics (GPRCs) provide face-to-face assessment and testing, and immediate support for issues such as:

- Asthma
- COPD
- Pneumonia
- Influenza
- Shortness of breath
- COVID-19 (Please book ahead)

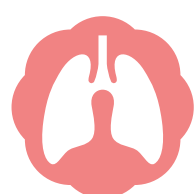

Services are available for anyone with respiratory symptoms, including children, with or without a Medicare card, at no cost.

Clinics are open seven days a week and after hours, in many locations across greater Melbourne.

For locations, more information, or to book an appointment, visit vtphna.org.au/gprcs
